

Commercial Kitchen Inspection Report

Establishment Name: The Grand Gastronomy Hall
Establishment Type: Large Commercial Kitchen
Inspection Date/Time: 2024-06-20 / 10:00 AM
Inspector: Jordan Lee

Assessment Summary

Hygiene & Sanitation

- **Surface Cleanliness:** Several food preparation surfaces were found with residue and required additional cleaning.
- **Pest Control:** Evidence of pest activity observed, including mouse droppings in dry storage area.
- **Handwashing Facilities:** Sinks were accessible and stocked with soap and paper towels.

Food Storage & Handling

- **Temperatures:** One walk-in refrigerator was operating above the safe temperature threshold (measured at 50°F).
- **Cross-Contamination:** Raw meats were stored above ready-to-eat foods in one cooler, increasing risk of cross-contamination.

Equipment Condition

- **Refrigeration:** One unit not maintaining required temperature; other units functioning properly.
 - **Cooking Equipment:** All stoves, ovens, and fryers in good working order.
 - **Smallwares:** Cutting boards and utensils in acceptable condition, though some require replacement due to wear.
-
